RE: Amended Plat-Long Meadow, Phase III
Lafayette County, MS

Dear Mr. Britt,

As we have discussed, our client David Pryor, has requested that we prepare a plat amendment for lots 1 as shown on the attached drawings.

Mr. Pryor wants to divide his lot into 3 parcels. All lots will be 4.00 acres or larger.

Also, as we have discussed, while working on this project I discovered that the recorded plat on file at the chancery clerk does not match the lots on the South side of Lafayette County Road 1032. All lots South of the county road are deeded by lot numbers and meets and bounds descriptions, the amended plat represents this. It is also worth noting that we have found a plat in our records that represent the deeded lots. It is my belief that this plat was used for the sales of the lots on the South side of the road, but was never recorded.

We are gathering the signature of the owners of the lots located in this subdivision phase. These owners have been made aware of the plat modification and do not object.

Please let me know if you have any questions or if you need additional information and thanks as always for your help.

Sincerely,

Patrick R. Sneed
