RE: Memorandum of Understanding and Board Order  
Fiscal Year 2019 Inspection of Designated Bridges  
Lafayette County, MS

Members of the Board,

Please find enclosed a Memorandum of Understanding with a Board Order and a proposed list of non-complex bridges scheduled for the 2018-2019 inspection cycle. These bridges have been routinely inspected by the County Engineer. The Federal Highway Administration has requested that the format of the agreement for bridge inspections be changed.

In the past, scheduled bridge inspections, quality control inspections, and follow-up inspections were done at a unit price of \$350.00 per bridge. Required monitoring of scour-critical structures were done at a unit price of \$120.00 per bridge. These inspections will now be completed through a labor-hour contract format similar to the current contracts for timber bridge inspections. Implementation of this format will proceed in the following way:

- The Board will review and approve the Memorandum of Understanding and the Board Order enclosed. These documents authorizes the State Aid Engineer to negotiate and execute a contract for inspection with the consultant your Board recommends.

- The Board will identify a qualified and experienced bridge inspection consultant for negotiation of the new inspection contract. The Board may select its current County Engineer for these inspections. Please note that the County Engineer or selected consultant **must be qualified and able to complete the inspections**. County Engineers or consultants who are selected must have in-house bridge inspection Team Leaders and other qualified personnel as required by the National Bridge Inspection Standards and must perform at least 40% of the contract. If the current County Engineer does not qualify for these inspections, the Board may recommend the consultant that has completed the inspections in the past or any other qualified consultant.
- State Aid will then negotiate the terms of the contract with the approved consultant and will execute the contract for the inspections. State Aid will communicate to the Board the results of the negotiation.

The initial costs for these inspections will be higher than for previous inspections due to the change in fee structure and the need to update load rating information for each structures. For the attached list of bridges to be inspected last year, total cost would be expected to be approximately \$24,980.00. With the new requirement of a more detailed inspection and load rating of the structures, this year's cost is expected to range from \$107,000.00 to \$142,000.00. It is expected that over time inspection costs will decrease and stabilize as inspection and load rating information for each structure is completed. As stated in the Memorandum of Understanding, it is anticipated that Federal funding will be utilized to pay for these inspections.

In order to meet the completion date for federal reporting of bridge inspection information, State Aid requests that the Board execute and return the Memorandum of Understanding and Board Order by August 5, 2018. Please advise if you have questions. Your usual cooperation is appreciated.

Sincerely,

H. Carey Webb  
State Aid Engineer

**MEMORANDUM OF UNDERSTANDING  
BETWEEN  
THE  
OFFICE OF STATE AID ROAD CONSTRUCTION  
AND THE  
BOARD OF SUPERVISORS OF LAFAYETTE COUNTY, MISSISSIPPI**

This Memorandum of Understanding ("Agreement") is by and between the Office of State Aid Road Construction, (STATE AID), acting by and through the State Aid Engineer, and the Board of Supervisors of Lafayette County of the State of Mississippi (COUNTY), effective as of the latest date of execution below.

**WHEREAS**, the COUNTY is a political subdivision of the State of Mississippi governed by its Board of Supervisors with full jurisdiction and governing authority over matters involving bridges within the COUNTY to be exercised in accordance with such regulations as the Legislature has prescribed pursuant to Article 6, § 170 of the *Mississippi Constitution of 1890*; and

**WHEREAS**, STATE AID is a legislatively established office of the Mississippi Department of Transportation (MDOT) established pursuant to Section 65-1-2 Miss. Code Ann. (1972) which, among other responsibilities, assists Mississippi's counties by administering the Federal Highway Administration's (FHWA's) National Bridge Inspection and Inventory program for county and locally owned bridges in Mississippi; and

**WHEREAS**, STATE AID and the COUNTY are authorized pursuant to Sections 65-1-77 and 65-1-79 of the Mississippi Code of 1972, as amended, to enter agreements which are a part of an overall plan to be administered under and to secure funds according to the provisions of Title 23, United States Code; and

**WHEREAS**, the COUNTY has been advised by the STATE AID Engineer that certain bridges on public roads within the COUNTY will require an inspection as set forth under the National Bridge Inspection Standards (NBIS) and the AASHTO Manual for Bridge Evaluation (MBE), Inspection of Fracture Critical Bridge Members (Report No. FHWA-IP-86-26), Bridge Inspector's Reference Manual (BIRM) (Publication No. FHWA NHIE 12-049), December 2012), AASHTO'S Manual of Bridge Element Inspection, Mississippi Bridge Inspection Program Local System Manual (LSM); and

**WHEREAS**, the bridges to be inspected are those bridges as designated by the STATE AID Engineer on public roads; and

**WHEREAS**, the parties desire to cooperate fully with each other in facilitating the performance of said inspections; and

**WHEREAS**, to the extent certain of the services required to accomplish these inspections are not covered by the Brooks Act (40 U.S.C. §§ 1101, *et seq.*) and related federal

regulations, the COUNTY will recommend a qualified consultant, subject to and as approved by the STATE AID Engineer, to contract with STATE AID to perform such inspection and data collection services as may be deemed necessary; and

**WHEREAS**, to the extent certain professional services are covered by the Brooks Act and related federal regulations, STATE AID will contract with professional consultants solicited and selected in accordance with the procedures set forth in the Federal-Aid Policy Guide and 23 CFR Part 172 to perform such services as may be deemed necessary; and

**NOW, THEREFORE**, in consideration of the promises and agreements of the parties hereto, as shown below, it is hereby agreed as follows:

## **I. PURPOSE**

The purpose of this Agreement is to establish and define the respective responsibilities and obligations of STATE AID and the COUNTY regarding the above mentioned bridge inspections in the COUNTY.

## **II. ADMINISTRATION AUTHORITY AND RESPONSIBILITIES OF THE PARTIES**

### **A. STATE AID shall:**

1. Review and, if appropriate, approve the recommendation of the COUNTY regarding qualified consultant(s) to execute a contract with STATE AID to perform bridge inspections and related services as are not covered by the Brooks Act and implementing regulations.
2. Negotiate a contract with fair and reasonable costs.
3. If the STATE AID Engineer determines that fair and reasonable costs cannot be negotiated, STATE AID may terminate negotiations and notify the COUNTY to recommend an alternative qualified consultant.
4. Execute such contracts as may be necessary and desirable for professional engineering and/or any other related services with professional consultant(s) solicited and selected in accordance with the procedures set forth in the Brooks Act and its implementing regulations.
5. Keep all records as required in the LSM and allow FHWA, MDOT or COUNTY access during reasonable business hours.

### **B. The COUNTY shall:**

1. Coordinate and cooperate with STATE AID in the inspection process.

2. Submit consultant(s), subject to the approval of the STATE AID Engineer, qualified to perform the required inspection(s) and complete all services in the consultant(s) contract(s) in the appropriate format and within the time allotted and any related work as required by STATE AID.
3. Cooperate fully with any STATE AID consultant(s) hired to perform professional engineering or any other services related to the inspection(s) and allow all access to property as necessary to perform the purpose of this Agreement.
4. Provide and make available all drawings, plans, and documents in the COUNTY's possession reflecting the structure and/or maintenance of the subject bridges that may make inspection of the bridges more efficient.

### III. CONTACT PERSONS

- A. For purposes of implementing this Agreement, the following individuals are herewith designated as agents for the respective parties unless written notice of a change is given. All correspondence shall be directed to the designated contacts.

The designated contacts for the parties are:

OFFICE OF STATE AID ROAD CONSTRUCTION  
**Attention State Aid Engineer**  
P.O. Box 1850  
Jackson, MS 39215-1850  
Tele. (601) 359-7150  
Fax. (601) 359-7141

LAFAYETTE COUNTY

---

---

---

---

- B. All notices given hereunder shall be by U.S. Certified Mail, return receipt requested, or by facsimile and shall be effective only upon receipt by the addressee at the above addresses or telephone numbers.

#### **IV. BRIDGES TO BE INSPECTED:**

The bridges to be inspected are those bridges as designated by the STATE AID Engineer on public roads and STATE AID and its consultant(s) are authorized to conduct the necessary inspections of all the designated bridges.

#### **V. CRITICAL FINDINGS AND POSTINGS/CLOSURES:**

A "Critical Finding" as defined in the LSM is any structural or safety related situation discovered during any inspection that threatens public safety.

In the event a consultant makes a "Critical Finding", the consultant shall notify the COUNTY and STATE AID immediately and the COUNTY shall proceed immediately to perform any and all action recommended by the consultant(s).

Bridges requiring posting or closure based on this inspection and evaluation will be promptly posted or closed by the COUNTY or City (if applicable) in accordance with established law, standards, and procedures.

Nothing in this Agreement shall be construed to limit the authority of STATE AID or the Mississippi Transportation Commission (MTC) under Sections 65-37-11 and 65-1-77 of the Mississippi Code and/or any other applicable law.

#### **VI. FUNDING**

It is expressly understood by the parties that funding for these inspections, professional engineering and/or any other related services and services not covered by the Brooks Act and implementing regulations are limited and that the obligation of STATE AID to proceed under the Agreement is conditioned upon availability of funds, the appropriation of funds by the United States Congress, the Mississippi Legislature and the COUNTY. All parties understand and agree that the first source of funding shall be those made available by the FHWA. If and when those funds are exhausted, then funding shall come from the STATE AID Road funding available to the COUNTY. Then and only then shall local COUNTY funding be applied to pay for the inspection services under these contracts.

Under no circumstances will STATE AID road funding or local COUNTY funding be committed to the inspection process without the agreement of the COUNTY.

#### **VII. AMENDMENTS**

This Agreement may only be amended in writing as mutually agreed by the parties.

#### **VIII. SEVERABILITY**

Should any provision of this Agreement be found to be unconstitutional, or otherwise be contrary to the laws of the State of Mississippi or the United States of

America, to the extent that it is reasonably possible to do so, the remainder of this Agreement shall remain in full force and effect.

## **IX. GENERAL PROVISIONS**

- A. Provision of the services anticipated by this Agreement and completion of the inspection(s) will be contingent on funding being provided by the Mississippi Legislature, the FHWA, or other source(s). However, under no circumstance shall State Aid have any financial obligations in excess of the amount of the available funding.
- B. It is understood that this is a Memorandum of Understanding, and that more specific requirements for the inspections are contained in the Federal Statutes and the Code of Federal Regulations, the Mississippi Code, and the policies and procedures of MDOT, STATE AID, and other related regulatory authorities. The COUNTY agrees to abide by all such applicable authority.
- C. All contracts and subcontracts shall include a provision for compliance with the Mississippi Employment Protection Act (MEPA), as published in the General Laws of 2008 and codified in Section 71-11-3 of the Mississippi Code of 1972, as amended. Under MEPA, the parties and every consultant or sub-consultant, if any, shall register with and participate in a federal work authorization program operated by the United States Department of Homeland Security to electronically verify information of newly hired employees pursuant to the Immigration Reform and Control Act of 1986, Pub.L. 99-603, 110 Stat. 3359, as amended.
- D. All contracts and subcontracts shall include all relevant required provisions as determined by STATE AID.

## **X. RESPONSIBILITIES FOR CLAIMS AND LIABILITY**

- A. The MTC, MDOT, STATE AID and the COUNTY, their agents, officials, and employees have no obligations or responsibilities toward the activities conducted under this Agreement except those specifically stated herein, and have no authority to supervise, or control any contractor or consultant employed by the other.
- B. The MTC will not be a party to any contract or subcontract entered into by STATE AID, but may concur in said contracts or subcontracts to the extent federal funds are involved.

## **XI. TERMINATION**

This Agreement may be terminated only by written approval of the parties in absence of a material breach by the non-terminating party.

**XII. AUTHORIZING BOARD ORDER**

A Board Order authorizing execution of this Agreement and naming the COUNTY'S recommended consultant(s), where applicable, under the agreement is attached as Exhibit A.

WITNESS this my signature in agreement and execution hereof,  
this the \_\_\_\_\_ day of \_\_\_\_\_, 2018.

**EXHIBIT A**

**ORDER OF THE BOARD OF SUPERVISORS OF  
LAFAYETTE COUNTY, MISSISSIPPI**

**WHEREAS**, the COUNTY has been advised by the STATE AID Engineer that certain bridges as designated by STATE AID within the COUNTY will require an inspection as set forth under the National Bridge Inspection Standards (NBIS) and the AASHTO Manual for Bridge Evaluation (MBE), Inspection of Fracture Critical Bridge Members (Report No. FHWA-IP-86-26), Bridge Inspector's Reference Manual (BIRM) (Publication No. FHWA NHIE 12-049), December 2012), AASHTO'S Manual of Bridge Element Inspection Mississippi Bridge Inspection Program Local System Manual (LSM) and the bridges are those bridges on public roads as designated by STATE AID.

**WHEREAS**, the COUNTY has been authorized to execute according to the terms contained therein the Memorandum of Understanding Between the Office of State Aid Road Construction and the Board of Supervisors of County, Mississippi ("Memorandum of Understanding") to which this order is attached thereto.

**WHEREAS**, the County desires to recommend a qualified and experienced Consultant(s) to conduct services under this Memorandum of Understanding.

**NOW, THEREFORE**, this Board does hereby order that the Board shall execute the Memorandum of Understanding and proceed with the inspection process of the listed bridges pursuant to the terms of the Memorandum of Understanding and the County does hereby recommend the Consultant(s) for the subject bridge inspection(s) as follows:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
