- REASONS:**

  2. Plan quantity at the ends of both box bridges (Sites C and D) were underestimated.
  3. The installed 24" RCP sidedrain under the ramp at 62+69 RT requires a one-joint extension; the ramp at 76+08 LT requires a 36" RCP sidedrain; a ramp and 24" RCP sidedrain will be added at 108+00 LT; a ramp and 36" RCP sidedrain will be added at 156+00 RT.
  4. Plan quantity was underestimated.
  5. Final cross-sections have been taken on 95% of the project and these additions are per the average end-area calculations of those taken.
