The Lafayette County Planning Commission recommends preliminary and final subdivision plat approval of Splinter Creek phase 4 contingent upon the Board of Supervisors granting the following variances:

A variance from the maximum 10% longitudinal street grade to 12%

A variance from the required 3" of hot bituminous asphalt street surface to double bituminous surface treatment (DBST)

A variance to permit dry hydrants installed at each end of each of the two largest lakes in the development in place of the requirements found in Article V Section 4 F of The Lafayette County Land Development Standards and Regulations.
